BIO:

Jennifer Payeur is a passionate advocate for the healing power of nature. After experiencing a life-threatening health issue, she left a 29-year career as an executive in Financial Services and embarked on a journey of self-discovery, reconnecting with the inherent healing properties of plants.

In 2019, she founded Nature Provides, an innovative plant stem cell company. Her mission is to educate and empower others on how these unique plant remedies detoxify, strengthen and rejuvenate the cells in the body, bringing vibrant health to the individual.

She wrote a book called *Ancient Plant Wisdom – How to Improve and Maintain Your Health Using Concentrated Plant Stem Cell Remedies* (Jan 2025) and filmed a documentary titled *Nature Provides – the Ancient Wisdom of Plant Stem Cells* (Mar 2025) in support of her mission to educate others on healing holistically.
